DoubleTree Hotel - 4431 PGA Blvd., Palm Beach Gardens, FL 33410

March 9th & 10th, 2012

\$440 per person (dentist or staff)

To register call **800-879-6468** or go to **www.DentalWriter.com**

Recent scientific literature suggests a strong relationship between oral disease and other systemic diseases and medical conditions.

A new relationship between dentistry and medicine is now developing regarding patient care. As the oral systemic connection is more clearly understood, dentists will play a greater role in the overall health of their patients. Many times, the first signs of unnatural systemic health conditions reveal themselves in changes within the oral cavity. The purpose of this two-day course with "hands-on" workshops is to provide the attendee with an overall understanding of the latest scientific findings, the individual areas of concern, the dentist/physician connection and the tools/procedures necessary for the dentist to provide a Total Health approach to their practice.

Total Health: An Oral Systemic Health Symposium (14 CE Credits)

Jonathan Bregman, DDS, FAGD

Dr. Bregman is a clinician, speaker, author, and trainer who led successful dental practices for more than 30 years. While dedicated to improving the dentist, team, and patient experience, he has a passion for educating dental professionals about early oral cancer detection.

Doug Thompson, DDS

Dr. Thompson is a clinician, published author and founder of Impact Dental Solutions, a company focused on assisting dentists with implementation strategies designed to put knowledge to work in their daily practices. Dr. Thompson has studied extensively at the Kois Center in Seattle, Washington where he earned the distinction of Clinical Instructor and also serves as a member of the Kois Center Advisory Board.

Rose Nierman, R.D.H.

The leading expert for Cross-Coding and Medical Billing in Dentistry, Rose has assisted thousands of dental practices with successful documentation, narrative reports and reimbursement from medical insurance. She has created an easily integrated system for dentists billing medical insurance for procedures such as oral appliances for sleep apnea treatment.

John H. Tucker, D.M.D. - ABDSM Diplomate.

Dr. Tucker is in private practice and has a special interest in the treatment of Obstructive Sleep Apnea and has been actively treating patients for the past five years. He is knowledgeable of various oral appliance designs thereby enabling an individualized treatment for each patient. He is a member of the Academy of Dental Sleep Medicine and the American Academy of Sleep Medicine.

Dr. Dan Sindelar

Dr. Sindelar's general practice is focused on advanced cosmetic rehabilitation, comprehensive periodontal management, dental sleep medicine, neuromuscular dentistry and facial pain and TMJ/TMD therapy. He is the author of Refresh Life, a book on the importance of oral health on overall health. He is a co-founder and board member of the American Academy for Oral Systemic Health (AAOSH) and is the chairman of the AAOSH committee on certification/accreditation.

Mark Van Dyke, D.O., M.P.H.

Dr. Van Dyke served as a flight surgeon and Emergency Medicine physician in the USAF. He currently practices in an urgent care setting where he also does occupational medicine. He is passionate about teaching others about the problems associated with sleep apnea and the benefits of treatment.

COURSE ELEMENTS

- An Introduction to The American Academy for Oral Systemic Health (AAOSH)
- Communicating with Physicians
- Expanding Current Patient Screening Practices
- Periodontal Disease, Oral Cancer and Dental Sleep Medicine
- Educating the Patient on Their Oral Systemic Health
- Committing the Practice to Total Health
- Hands-On Workshops Include:
 - * Use of Salivary Diagnostics
